Each coffin is unique and individually made to order. I can incorporate other natural materials that may be personal to the person whose life is being celebrated.

Please bear in mind that lead in time for coffins is 5 days to make and 2 for delivery.

If required I can supply and fit a natural cotton liner. However, I suggest you find a suitable covering that has personal significance if possible.

I can supply coffins anywhere (appropriate shipping charges will apply - typical courier charges in the UK are around £80 in 2018).
